

Lighthouse Tourism

Traditionally, a beacon of navigation for mariners for centuries, lighthouses are going through a transformation in the 21st century. Shedding their solitary image, lighthouses are emerging as a serious destination for travellers. They have captivated the attention of tourists smitten by the scenic and serene surroundings of the exotic location of these lighthouses

Scope in India

India has as many as **189 lighthouses** dotting its vast coastline of 7517 km, including the Andaman and Nicobar Islands in the Bay of Bengal and the Lakshadweep Islands in the Arabian Sea.

Interestingly, each lighthouse is distinct in itself. Steeped in rich maritime heritage, each lighthouse has a story to tell; and has a tremendous tourism potential just waiting to be tapped. Domestic and international lighthouse lovers are eager to traverse our coastline and explore these old giants that stand as a sentinel between the sea and the land.

Initiatives Taken and Way Forward

The Directorate General of Lighthouses and Lightships (DGLL) has successfully developed 4 lighthouses as tourist attraction centres; the Madras & Mahabalipuram lighthouses in Tamil Nadu and the Alleppy & Cannanore lighthouses in Kerala, which have seen substantial footfall in tourist visits, over the past few years. The Ministry of Shipping has now embarked on the initiative of bringing lighthouses closer to the people by turning them into enthralling and adventurous tourist destinations.

The Ministry of Shipping through the DGLL has drawn up an ambitious programme for developing tourism in the land adjacent to these 78 lighthouses, in the first phase, under Public Private Partnership (PPP). Addition of Hotels, Resorts, Viewing galleries, Adventure sports, Thematic restaurants and allied tourism facilities will convert these maritime landmarks into unique tourism destinations.

The DGLL has already invited Request for Qualifications (RFQ) from prospective and potential developers for 8 lighthouses at Aguada (Goa), Chandrabhaga (Odisha), Mahabalipuram, Kanya kumari and Muttom (Tamil Nadu), Kadalur Point (Thikkodi, Kerala), Kanhoji Angre and Sunk Rock (Maharashtra) and Minicoy (Lakshadweep). An Expression of Interest (EOI) has also been issued by the DGLL, for another set of 70 lighthouses.

The Ministry of Shipping is organising three Road-shows at Kochi, Vizag and Chennai and a grand Investor's Summit at Mumbai. It seeks the active participation from the hospitality players and realty developers (in the private sector) and the support of the State Government agencies at these events.

Schedule of Road Shows & Investors Summit

Road Show @ Kochi

14 October 2015, 11:00 – 13:00 hrs
Hotel Vivanta by Taj Malabar, Kochi

Road Show @ Visakhapatnam

17 October 2015, 11:00 – 13:00 hrs
Hotel Grand Bay, Visakhapatnam

Road Show @ Chennai

19 October 2015, 11:00 – 13:00 hrs
Hotel Taj Connemara, Chennai

Investors Summit, Mumbai

29 October 2015, 10:30 – 13:00 hrs
Hotel Taj Mahal Palace, Mumbai.

MESSAGE

Lighthouses, apart from being principally engaged in providing Aids to Navigation, is now being universally recognized as centres of tourist attraction owing to their unique location and sylvan surroundings. The tourism potential of our innumerable lighthouses has so far remained untapped. With 189 lighthouse dotting our long coastline along the shore, on islands, on reefs and even submerged rocks, the scope of transforming them into vibrant tourist destination is immense.

The Ministry of Shipping has identified 78 lighthouse including Island lighthouses for development of tourism amenities. Directorate General of Lighthouses and Lightships (DGLL) is organising an Investor's Summit to present the potential to private players and potential investors for developing lighthouse tourism in the Public Private Partnership mode. This is another concerted step forward of the Sagarmala initiative of developing island and coastal tourism.

I am happy to present this information booklet prepared by DGLL, both in printed and e-book form, which will provide insight to prospective investors and developers and will help in making this ambitious programme of developing lighthouse tourism a success story.

MESSAGE

It gives me immense pleasure to note that the Directorate General of Lighthouses and Lightships have embarked upon developing their lighthouses across the vast coastline as tourism destinations. The lighthouses, standing majestically against sparkling blue sky and clear horizon, command a panoramic view, thus making them irresistible centres of attraction for tourists. By opening up these structures for public, it will provide a unique opportunity for visitors to experience the maritime heritage which has been conserved by lighthouse over time.

The publication of this informative booklet both in printed and e – book form is an excellent idea for enthusing potential private sector investors to become active partners in giving shape to this ambitious programme of making Lighthouses the new beacons of tourism.

MESSAGE

Most lighthouses in India are located in places marked by scenic beauty and serene ambience with high potential for tourism. Some of the lighthouse structures are iconic architectural landmarks with heritage value and rich historic background. The Ministry of Shipping through the Directorate General of Lighthouse and Lightships (DGLL) is endeavouring to bring 78 lighthouses on the national and international tourism circuit on Public Private Partnership mode. This initiative will not only pull out the lighthouses from their stoic and mystic isolation but add to the eagerness of Lighthouse lovers to travel up and down the coastline, admiring the old giants that still stand sentinel between the sea and the land.

I am happy that DGLL is organising Road-shows and Investor's Summit to generate interest amongst private entities to take up the new challenge of developing tourism at lighthouses. The Information Booklet in printed and e-book form will be a handy tool for all the interested stakeholders in getting comprehensive and relevant information on these lighthouses and help in taking prudent investment decisions.

I wish the DGLL a big success in all their efforts in this direction.

(Rajive Kumar)

Promoting Tourism at Lighthouses

Traditionally a beacon of navigation for mariners for centuries, lighthouses are going through a transformation in the 21st Century. Shedding their solitary image, lighthouses are emerging as a serious destination for travellers. They have captivated the attention of tourists smitten by the scenic and serene surroundings of the exotic location of these Lighthouses.

India has as many as 189 lighthouses dotting its vast coastline of 7517 km, including the Andaman and Nicobar Islands in the Bay of Bengal and Lakshadweep Islands in the Arabian Sea. Interestingly, each lighthouse is distinct in itself. Steeped in rich maritime heritage, each lighthouse has a story to tell; and has tremendous tourism potential just waiting to be tapped. Domestic and international lighthouse lovers are eager to traverse our coastline and explore these old giants that stand sentinel between the sea and the land.

The Directorate General of Lighthouses and Lightships (DGLL) has successfully developed 4 lighthouses as tourist attraction centres; the Madras and Mahabalipuram lighthouses in Tamil Nadu and the Alleppy and Cannanore lighthouses in Kerala which have seen substantial footfall in tourist visit, over the past few years. The Ministry of Shipping has now embarked on the initiative of bringing lighthouses closer to the people by turning them into enthralling and adventurous tourist destinations.

The Ministry of Shipping through the DGLL has drawn up an ambitious programme for developing tourism in the land adjacent to these 78 lighthouses, in the first phase, under Public Private Partnership (PPP). Addition of Hotels, Resorts, Viewing galleries, Adventure sports, Thematic restaurants and allied tourism facilities will convert these maritime landmarks into unique tourism destinations.

The DGLL has already invited Request for Qualifications (RFQ) from prospective and potential developers for 8 lighthouses at Aguada (Goa), Chandrabhaga (Odisha), Mahabalipuram, Kanya Kumari and Muttom (Tamil Nadu), Kadalur Point (Thikkodi, Kerala), Kanhoji Angre and Sunk Rock (Maharashtra) and Minicoy (Lakshadweep). An Expression of Interest (EOI) has also been issued by the DGLL for another set of 70 lighthouses.
